

Second Wind Llama Adventures

“The mind/body/nature connection, also called **Vitamin N** (for nature), will enhance physical and mental health.”

— Richard Louv, *The Nature Principle: Human Restoration and the End of Nature-Deficit Disorder*

Welcome to Second Wind Farm! My name is Bev Vienckowski and my passion is farming. We invite you to spend some time with us to enjoy nature, relax and have fun. Our 3½ acre farm is in New Egypt, Ocean County, New Jersey, and just a short walk to the Colliers Mills Wildlife Management Area (WMA).

Are you looking for a unique outdoor experience? Would you like to meet a llama? Walk a llama? Hold a chicken?

Create a memory! Make a date for a llama adventure. Enjoy our most popular **Llama Lake Walk Adventure** available to participants 12 years and up including able bodied seniors. A **Llama-Adventure-Lite** might be right for those who would like to experience llamas without a hike in the woods. Or use your imagination to create your own unique **Custom Llama Adventure**. We can also design a personalized **Special Needs Adventure** llama experience for visitors with special needs.

How does my llama adventure begin?

The most important thing for me is to make sure you feel safe with the llamas, and they with you. We start with meeting the chickens as an “ice breaker” before entering the llama paddock. This allows the llama boys a chance to observe you with me first. Though they have a hierarchy within their herd, I am the “boss” of them, head of their herd as gatekeeper, the one who looks out for their safety, brings food and comfort. So when you accompany me inside of their domain you will be accepted as a member of the herd too. From there we move on to introductions...

Come meet seven fabulous friendly faces!

Llamas: Eduardo, Clemente, Jim-E, Carbon, Gunner, Eden and Jonathan
